

Got Heat?

..then these gloves and cover mitts are for you. The 'Kings' of KEVLAR® Terry are pleased to introduce Carbon KEVLAR® Terry gloves and cover mitts.

The material is a double loop carbon cloth blended with KEVLAR® fiber with an extra palm patch (inside) of aluminized KEVLAR® for a premier combination of heat resistance and durability.

Designed to protect hands from temperatures above 500° F. For really hot jobs use the available cover mitts (for protection up to 2000° F)

Note: length of handling protection is time and weight dependent

14" Glove (G51ATVH14210)

14" Glove with Cover Mitt (M10ATXX10)

18" Glove also available (G51ATVH18210)
