

# FR Knit Hoods

Stocked and ready for delivery

Model # KITHP12GGL

Model # KITHP27

Model # KITHP45

## 12 Cal Utility Combination

- Arc Rating of 12 cal/cm<sup>2</sup> when tested in combination per ASTM 2178 test method
- Provides increased flexibility with excellent breathability
- Ultra Soft® balaclava designed with contoured eyehole to be worn specifically with arc goggle
- Arc Goggle has anti-fog lens with baffled top and bottom vents for increased airflow

## 27 Cal Utility Combination

- Arc Rating of 27 cal/cm<sup>2</sup> when tested in combination per ASTM 2178 test method
- Provides a lightweight, cost-effective alternative to beekeeper hoods
- Carbon Para-Aramid balaclava has longer bib for additional arc protection
- Balaclava has superior flexibility, warmth and offers excellent arc protection
- Arc Goggle has anti-fog lens with baffled top and bottom vents for increased airflow

## 45 Cal High Energy Combination

- Arc Rating of 45 cal/cm<sup>2</sup> when tested in combination per ASTM 2178 test method
- Provides a lightweight, cost-effective alternative to beekeeper hoods
- Triple-layer Carbon X® balaclava is designed with inner breathing chamber for increased airflow and holes for eye exposure only
- Balaclava has superior flexibility, warmth and offers excellent arc protection
- Arc Goggle has anti-fog lens with baffled top and bottom vents for increased airflow
