

NEW Arc Flash Faceshield Unit by NSA Arc Flash Protection

Proudly made in the USA.

NEW 12 cal/cm² Faceshield Unit with larger Chin Cup!

National Safety Apparel's NEW Arc Flash Protection Faceshield Unit is now Arc Rated at 12 cal/cm² and utilizes nanotechnology to increase the performance in arc flash exposure. The shield offers an excellent field of view for the worker and is designed with a larger chin cup for added protection. The faceshield includes an anti-fog lens that prevents condensation and keeps the inside of your faceshield fog-free.

The faceshields are tested according to ASTM F-2178-02a and ANSI Z87.1-2009.

Available in a KIT!

Head Protection Kit Includes:

- Hard hat with 12 cal/cm² arc rated faceshield & chin cup
- 12 cal/cm² Indura Ultra Soft® balaclava
- Safety glasses
- Faceshield unit bag
