with
DWR!**

Model # C23FL05

Model # C23FO05

NSA's Nomex® Fleece line is designed to offer superior warmth with excellent Arc Flash protection. The premium FR sweatshirts & vests are for cold weather environments and have a Durable Water Repellent (DWR) finish that allows the water to instantly bead off the garment, preventing any saturation build up.

To simply put it, our FR Sweatshirts & vests are constructed for comfort, warmth and quality.

NSA's DWR finish comes standard on all Nomex® Fleece garments. For more information, please contact NSA.
